

# STONE BURIER WITH REAR ROLLER TYPE RSF

For tractors from 80 to 160 HP

Built with a working width from 185 to 300 cm, required power from 890 to 160 HP and working depth from 15 to 30 cm. RSF clods burier is a professional machine built to work in clayey and hard soils. The exclusive Frangiter rotor and its high rotation speed allow to break up the clods evenly. The Frangiter technique and the solid side

transmission by gears allow to achieve more reliability and duration of the machine during the years even in extreme conditions.

Designed to work in soils with clods.
